### 3.2.5 Other Items contained in the Annual Report

#### Questions Received:

Mr P White – Narrogin

1. The Total Rates Levied and Total Revenue on page 2 is not consistent with the Financial Report. What are the correct figures?

The Chief Executive Officer responded the correct figures are in the Financial Report.

2. What is Council considering doing with the Lions Lookout?

Mayor Ballard replied that we have been meeting with Narrogin Lions and are discussing the possibility of installing an elevated viewing platform.

3. Could I please have clarification are there eight or nine elected members? Page 7 says nine elected members and the Freedom of Information Section says eight with one vacant seat?

Mayor Ballard responded that it is correct that last financial year there were nine seats of which only eight were filled as the WA Electoral Commission allowed a seat to remain vacant until the 2015 ordinary election.

4. Page 9 – Section 1.5 – the wording is exactly the same as the report from last year – is the statement correct?

The Chief Executive Officer replied that the comments have been retained as the comments are still relevant for 2014/15. This report is not in full detail because if comments were to be provided on each project completed the document would be too detailed for the requirement of annual report, however, Mr White's comments are appreciated and will be taken onboard.

5. With reference 1.8 - Crematorium Development. The wording is ambivalent, can you please explain?

Mayor Ballard replied that the development is cost prohibitive and that is why there is no further action at this point in time.

6. With reference 2.4 on page 12 – the grade has dropped from 3 to 2 this year – what has happened with this initiative?

Mayor Ballard replied that not a lot has occurred, but the Town has now engaged the Manager Leisure and Culture to start discussions with RAP Committee, but that action will be reported in the current financial year.

7. With reference 3.1 on page 15 – has there been any activity on this strategy in the last 12 months?

The Chief Executive Officer responded that we have had students in doing a hydrological study, and the Town has repaired pipes and the

overall system in small section. The Town has spent quite a bit on this. Mayor Ballard also added that The Town is trying to have discussions with the Minister to discuss accessing waste water.

8. With reference 3.2 on page 15 – the score has increased from 2 to 3 can you please advise what happened there?

The Chief Executive Officer responded that it is relevant to the Migrant Camp development in that area and at the time of writing the report I did not consider it was at a point of being noteworthy.

9. With reference 3.3 on page 15 – what is the response of the State to transfer to council freehold land in the amalgamation process?

Mayor Ballard responded that at this point in time there are 3 parcels of land approved to be transferred freehold and there are another 3 in progress – but the response was received in the current financial year.

10. With reference 4.1 on page 16 – the wording is the same as last year – does this still need to be completed?

Mayor Ballard responded that the Local Laws have to be repealed and that other local laws need to be reviewed during the merger process. The Town has a Merger Coordinator working on that project presently.

11. With reference 4.3 on page 17 – what will happen to the finalisation of the Town Planning Scheme 3?

Mayor Ballard responded that this is currently being worked on and an agenda item goes forward this December.

12. With reference 5.2 on page 18 – how is the success of the recycling program judged and reported?

The Chief Executive Officer responded, the strategy was to implement a program which is now underway and recyclables are being transported to Perth.

13. With reference 6.5 on page 20 – were the works on Fortune Street omitted from the report?

Mayor Ballard responded that these works were completed in July and fall under the current financial year.

14. With reference 6.7 on page 21 – can you please advise how well the asbestos plan progressing?

The Chief Executive Officer responded that all Town properties have been assessed and removal will continue to occur once it gets appropriate funding.

15. With reference 7.1 on page 22 – has there been any progress on lobbying for a University Campus.

Mayor Ballard responded that we have had many conversations with CY O'Connor TAFE, with University of Queensland, Charles Sturt University for example and it is progressing.

16. With reference to paragraph 4, Competitive Neutrality on page 24 – is the date correct?

The Chief Executive Officer responded that is an error and will be reviewed.

17. It appears that one staff member has dropped salary brackets?

The Chief Executive Officer responded that he chose to salary sacrifice some of his salary last financial year.

Ms T Beaton – Narrogin

1. Page 12 Strategy 2.3 – Further Development of Aged Care Industry. This report is not clear on how the Regional report developed by the steering committee contributes to the aged care industry. What is the report saying?

Mayor Ballard replied that through the Wheatbelt Development Commission, there is a whole of Wheatbelt and whole of State strategy. Narrogin's focus is on dementia and Kardinya's further development and more details are available in Verso's report.

The Chief Executive Officer added that the Town Planning Scheme takes into account the growth of aged care in Narrogin.
